## # 创建 form

创建一个包含 input 属性 required 和 submit 属性的 HTML 表单

```
<form>
```

```
<input type="text" required>
```

```
<button type="submit">Send</button>
```

```
</form>
```

在服务器端使用 PHP 的 preg\_match() 函数或 JS 的 match() 函数来验证 HTML 表单的 input 属性 submit method 属性。

type 属性 pattern

input 属性 type 属性 number, email, date, time
